Subject DM&E Meeting in MN

Dear Mr. Strelesky:

I understand (roundabout through Alan Stanfill and Randy Withrow) that you are now the point person for the DM&E Project. I also understand that you would like to schedule a meeting in MN with someone from STB participating the week of October 12th.

As you may know, I am the project manager for the DM&E Project within STB's Section of Environmental Analysis (SEA). Victoria Rutson is my supervisor and Chief of SEA. We will be your contacts here at STB for this project.

We currently are in a fiscal money crunch and we are not allowed to travel without special approval. If you would like to meet with either Vicki or me this month, you would need to come here to D.C. Also, if you would like Berger staff to participate, they will not be available the week of October 12. October 12 is also a Federal holiday and our building will be closed. I recommend that we meet here in D.C. the week of October 19th.

Please feel free to contact me directly if you have any concerns regarding the project as I feel direct contact is always the best approach.

I look forward to working with you.

Best Regards,

Catherine Glidden
