Kathryn, please find attached a letter confirming the revised due dates set forth in your letter of November 25th. The team appreciates the work you, Kevin Keller, and all those who are gathering and verifying the accuracy of this information and data. All of us at OEA wish you and yours and very Happy Thanksgiving.

Vicki

Re: Docket No. FD 36284, Seven County Infrastructure Coalition—Construction & Operation Exemption—in Utah, Carbon, Duchesne, and Uinta Counties, Utah; Confirmation of Revised Deadlines in Applicant's Response to Information Request No. 3

Dear Ms. Floyd:

Thank you for your response on behalf of the Seven County Infrastructure Coalition (Coalition) revising the due dates for the Surface Transportation Board's Office of Environmental Analysis's (OEA) receipt of information and data needed from the Coalition for the environmental review process. Thank you, too, for your explanation that recent changes to the final Whitmore Park Route have necessitated that the Coalition request an extension for some of the deadlines memorialized in OEA's November 13th letter. While we note that every delay has a consequence to the timely completion of the environmental review process, the information and data referenced in the letter are necessary for OEA to prepare the Draft Environmental Impact Statement. We look forward to receiving the information and data on the revised dates in your November 25th letter.

If we can be of further assistance, please contact me or Josh Wayland of my staff at (202) 245-0330 or joshua.wayland@stb.gov. Thank you for your cooperation and assistance.

Sincerely,

Victoria Rutson,
Director

Office of Environmental Analysis
