Mr. Smith,

Please also see the official version of the Environmental Assessment and the site map (attached). Both of these are also available on our website (www.stb.dot.gov). Of course, I do recommend that you submit comments on the EA, particularly if you have concerns about environmental impacts (contaminated soils, for example). I might also suggest that you consider bringing these concerns to the attention of the local government requesting the trail-use agreement.

I hope this helps!

Best,
