Subject: Uinta Basin Railway Bridge Locations

Kevin,

Thank you for taking my call earlier this afternoon. As we discussed, OEA is requesting that HDR provide us with the locations of bridges that would need to be constructed as part of the Indian Canyon Route and Wells Draw Route, including the start and end points of each bridge. This information is needed for us to conduct fieldwork for the visual impacts analysis in the Uinta Basin Railway EIS, so it is important that we receive it as soon as possible, but no later than September 18. Thanks for your help—please let me know if you have any questions or concerns.

Best,
Josh
