Lou -

HDR needs some train speed information in KY and OH for the wildlife strikes analysis (see attached table). I have filled in the speeds for the LCL Subdivision based on information in Volume 1 of the Application. However, we still need speed data for the Cincinnati Terminal/Toledo Subdivision. Average speeds that do not include dwell time at Queensgate Yard or elsewhere are needed.

I will be out of the office again tomorrow and Friday (May 22 and 23). Please copy Rose Hargrave on any replies to our data requests during that time.

Thanks,

Dave

Hi Dave: To complete the wildlife strike analysis we will also need the speeds on the LCL Subdivision and Cincinnati Terminal/ Toledo Subdivision (yellow boxes). Could you pass this on to Lou. Sorry for this late request. I had forgotten that the wildlife strike analysis is a little more systemic.

Thanks

Rose[attachment "Copy of CSXT_Operations_Data_Request.xlsx" deleted by David Navecky/STB]
