Subject BNSF Railway Abandonment Exemption AB-6 (Sub-No. 463X) 

EO-1085

Hi Russell:

In the Environmental Report for AB-6 (Sub-No. 463X) we determined that the Line itself may be eligible and recommended a condition for BNSF to take no steps to alter the historic integrity of all sites and structures on the right-of-way that are eligible for listing or listed in the National Register until completion of the Section 106 process of the National Historic Preservation Act, 16 U.S.C. 470f.

Based on your comments, as shown below, STB has since determined that the proposed abandonment in AB-6 (Sub-No. 463X) will have "No Adverse Effect" on the eligible Line pursuant to 36 CFR 800.5(b).

Please provide your concurrence if you agree. If so, we will remove the Section 106 condition attached to this decision.

Thanks,

Catherine Glidden
