

**SURFACE TRANSPORTATION BOARD
SECTION OF ENVIRONMENTAL ANALYSIS**

POST ENVIRONMENTAL ASSESSMENT

ENVIRONMENTAL RECOMMENDATIONS IN STB DOCKET NO. AB-511 (Sub No. 4X)

April 24, 2009

ABANDONMENT TYPE

The time for comments on the Environmental Assessment (EA) has expired in this:

☒ (X) Notice of Exemption ☐ () Petition for Exemption ☐ () Regulated Abandonment

☒ (X) **NO NEW COMMENTS WERE RECEIVED**

☐ () **NEW COMMENTS WERE RECEIVED**

SEA served an Environmental Assessment (EA) for this proceeding on April 3, 2009 for public review and comment. In the EA, SEA recommended two environmental conditions and concluded that the proposed action would not significantly impact the quality of the human environment.

Conclusions

The EA comment period has ended. Accordingly, SEA recommends that the following conditions previously recommended in the EA should be imposed upon any decision granting abandonment authority:

1. The Central Railroad Company of Indianapolis shall retain its interest in and take no steps to alter the historic integrity of all historic properties including sites, buildings, structures, and objects within the project right-of-way (the Area of Potential Effect) that are eligible for listing or listed in the National Register of Historic Places until the Section 106 process of the National Historic Preservation Act, 16 U.S.C. 470f, has been completed. The Central Railroad Company of Indianapolis shall report back to the Section of Environmental Analysis regarding any consultations with the Indiana State Historic Preservation Officer and the public. The Central Railroad Company of Indianapolis may not file its consummation notice or initiate any salvage activities related to abandonment (including removal of tracks and ties) until the Section 106 process has been completed and the Board has removed this condition.
2. The Central Railroad Company of Indianapolis shall consult with the National Geodetic Survey (NGS) and notify NGS at least 90 days prior to beginning salvage activities that could disturb or destroy any geodetic station markers.

If the above conditions are imposed, SEA believes that the proposed action will not significantly affect the quality of the human environment.
