RE: Docket No. FD 30186, Tongue River Railroad Company, Inc.—Rail Construction and Operation—in Custer, Powder River and Rosebud Counties, Mont.

«GreetingLine»:

On October 16, 2012, Tongue River Railroad Company, Inc. (TRRC) filed a revised application with the Surface Transportation Board (Board) pursuant to 49 United States Code (U.S.C.) § 10901 in Docket No. FD 30186. TRRC intends to construct and operate an approximately 80-mile rail line between Miles City, Montana, and two ending points, one near the site of the previously planned Montco mine near Ashland, Montana, and another at the proposed Otter Creek mine in the Otter Creek area east of Ashland, Montana. Because the construction and operation of this project has the potential to result in significant environmental impacts, the Board's Office of Environmental Analysis (OEA) determined that the preparation of an Environmental Impact Statement (EIS) is appropriate pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. §§ 4321 *et seq.*).

OEA issued a Notice of Intent (NOI) to prepare an EIS for the project, a Draft Scope of Study, and a notice of scoping meetings, which is attached to this letter. We would appreciate your comments on the Draft Scope of Study and potential alternatives to TRRC's proposed alignment, including at a minimum, those analyzed in the Tongue River I EIS (see attached map), by the close of the scoping comment period on December 6, 2012.

OEA will be hosting eight public scoping meetings at the locations and on the dates listed below. The scoping meetings will be an open house format for the first hour with the second hour beginning with a brief presentation by OEA followed by public comments. The meeting locations comply with the Americans with Disabilities Act of 1990 (42 U.S.C. §§ 12101 *et seq.*). Persons that need special accommodations should telephone OEA's toll-free number for the project at 1-866-622-4355.
