

Re: Cates Landing / Lake County 
Joshua Wayland to: Joseph Garrison

02/12/2016 03:06 PM

Dr. Garrison,

Thank you for following up to my recent email. The link you provided does not seem to be working. Can you please provide me with any information regarding the letter that we received from your office last month about the proposed rail construction case at Cates Landing in Lake County? The letter states that the project would adversely affect properties that are eligible for listing in the National Register of Historic Places (see attached). Based on our survey of the project area and our consultations with your office last year, we are not aware of any historic properties in the project area. We had previously received concurrence from you that no historic properties would be affected. If the SHPO's opinion has changed based on new information, we would like to be able to incorporate that opinion into the Final Environmental Assessment that we are preparing for this proposal.

At this point, I believe your office is already in possession of all of the available information regarding this case, including the Cultural Resources Survey, the Draft Environmental Assessment, and applicable correspondence. If you need additional documentation, please let me know what you need and I will do my best to provide it to you immediately.

SHPO Letter January 2016.pdf

As always, thank you for your time and assistance,

Josh Wayland
