Hi Steve,

As you requested on one of our monthly calls, the map of the river and stream crossings was prepared and is now posted on the Tongue River EIS website at the following location:

http://www.tonguerivereis.com/documents/WaterCrossings_ALL.pdf

If you zoom in about 300% or 400%, you can see the names of the water crossings pretty well. We also have a table of the crossings with latitude/longitude if you think it would be helpful.

Please let us know if you have any questions.

Rick
