Hello Mary,

So nice chatting to you moments ago. Victoria Rutson, Director of the Office of Environmental Analysis of the Surface Transportation Board (US Dept. of Transportation) would like to discuss the proposed Tongue River Railroad project in southeastern Montana with President Brewer if he is interested and available. Ms. Rutson would like to hear from the Oglala Sioux and the tribe's interest in the broader range of environmental impacts assess under the National Environmental Policy Act. A set of maps of the alternative maps are attached to this e-mail for reference.

Ms. Rutson is available on Tuesday, Wednesday, and Friday this week, July 23, 24, and 26. Please discuss this schedule with President Brewer and let us know when he is availability so we can set up the call.

FYI, we have already been in contact with Wilmer Mesteth and Roberta Joyce Whiting regarding the cultural resources analysis for the proposed project.

Thank you very much.

Rick Starzak
