Dear Consulting Party,

The Surface Transportation Board (Board) has received a Supplemental Application for Construction and Operation Authority from the Tongue River Railroad Company, Inc. (TRRC). The Supplemental Application supersedes the October 16, 2012 Revised Application filed by TRRC.

The application clarifies a number of questions raised by the Board regarding the applicant's proposed project to construct and operate a rail line between Miles City, MT and Ashland/Otter Creek, MT. The document also identifies the Colstrip Alignment as the applicant's new preferred alignment. The document is available for viewing and/or downloading on our web site under Filings: <http://www.stb.dot.gov/stb/index.html>. To access the document directly click [here](#).

If you have any questions regarding the application please contact Ken Blodgett, the environmental manager for this case. He can be reached at 202-245-0305 or blodgettk@stb.dot.gov. Feel free to call or email me as well (202-245-0293; gliddenc@stb.dot.gov).

All the best,

-Cathy
