Hi Charlene,

As you know, we have organized a working group for the purpose of editing and revising the programmatic agreement for the Tongue River Railroad Construction Project. During our last call on Friday, October 31st, several of the callers - including Betsy Merritt - felt it important that you or Najah (or both) be on our next call. In specific, we would greatly appreciate specific guidance from your office regarding ways in which we can better address the comments and concerns of consulting parties. We would also like your advise on ways we can respond to other concerns noted in your October 30, September 3 and 8 letters to us.

Our next call is scheduled for this Friday, November 7 at 1 pm EST. I will be forwarding you the call-in information. I hope you or Najah can join us.

Thanks so much!

-Cathy
