

Fw: Cates Landing Railroad (FD 35802)- Information Request #1

Joshua Wayland to: Heffner, John D.

02/10/2015 06:47 AM

Hi John,

I am following up on the information request that I sent a couple weeks ago (see below). In addition to the items in the information request, we would also be interested in seeing any additional design details that are available, such as the type of track (continuously welded or jointed) and the anticipated train speed.

Thank you for your help,

Joshua Wayland

Subject: Cates Landing Railroad (FD 35802)- Information Request #1

John,

Please find attached a request for information needed in the environmental review of the proposed rail line construction at Cates Landing (STB Docket Number FD 35802). Feel free to call me with any questions. Let me know if you would like a hard copy to be mailed to your office.
