Kathryn -

Below is my interpretation of the Board-imposed mitigation measures regarding plans or reports to be submitted to OEA, and others, as appropriate.

Please let me know if you have any questions.

Thanks,

Dave

To Be Submitted Prior to Construction

Mitigation Measure 39. Reclamation Plan for Disturbed Areas. Copies of the plan are to be submitted to USFWS and ADF&G concurrently.

Mitigation Measure 42. Nonnative Invasive Plant Mitigation Plan. A copy of the plan is to be submitted to ADNR concurrently.

Mitigation Measure 47. Draft Moose Mitigation Strategy Plan. Copies of the plan are to be submitted to ADF&G and ADNR concurrently. Subject to review comments by OEA, ADF&G and ADNR.

Mitigation Measure 84d. Report on Proposed At-grade Crossings of Officially Recognized Trails.

To Be Submitted Prior to Completing Final Design

Mitigation Measure 68. Navigation Maintenance Plan. Copies to be submitted to ADNR and ADF&G concurrently.

Mitigation Measure 92. Draft Report on Proposed Relocation of Officially Recognized Trails. Copies of the report are to be submitted concurrently to all consulted parties. Subject to review and comment by all consulted parties and OEA.

Mitigation Measure 92. Final Report on Proposed Relocation of Officially Recognized Trails. Copies of the report are to be submitted concurrently to all consulted parties.

Mitigation Measure 93. Draft Report on Trails Contributing to the Iditarod Dog Sledding Historic District. Copies of the report are to be submitted concurrently to all consulted parties. Subject to review and comment by all consulted parties and OEA.

Mitigation Measure 93. Final Report on Trails Contributing to the Iditarod Dog Sledding Historic District. Copies of the report are to be submitted concurrently to all consulted parties.
