Terry -

At last week's public scoping meeting for the Environmental Impact Statement (EIS) on the proposed Port Canaveral Rail Extension, you provided me with your email address and requested that I send you a copy of my meeting presentation. As requested, that presentation is attached.

Thank you for participating in the Surface Transportation Board's environmental review process. If you haven't already, I encourage you to submit written comments on the scope of the EIS and the proposed project, either by regular U.S. mail at the address below, or through my agency's website at this location:

<http://www.stb.dot.gov/Ect1/ecorrespondence.nsf/incoming?OpenForm>

Enjoy the holiday!

Thanks,

Dave
