2.1 Proposed Action.....	2-1
2.2 The quarry is not properly viewed as part of the proposed action	2-2
2.2.1 VCM has sought only Board authority to construct and operate the proposed rail line. Therefore, including the quarry as part of the proposed action would not inform the Board’s decision on SGR’s petition to construct and operate the rail line	2-2
2.2.2 The Board has not authority or control over VCM’s quarry.....	2-4
2.2.3 The Board has no authority to mitigate potential harms from the quarry	2-4
2.2.4 SEA’s analysis of cumulative impacts contains an appropriate assessment of the impacts from the quarry	2-5
2.2.5 Board and judicial precedent indicate that the quarry need not be considered as part of the proposed action.....	2-5
2.2.6 Commenters’ arguments for including the quarry as part of the proposed action are not supported by the relevant case law	2-6
