### **Executive Summary**

|                                                  |                               |
|--------------------------------------------------|-------------------------------|
| aggregate loading system.....                    | ES-6                          |
| Alternative 1.....                               | ES-3, 4, 6, 8, 9, 10, 11      |
| Alternative 2.....                               | ES-3, 4, 6, 8, 9, 10, 11, 12  |
| Alternative 3.....                               | ES-3, 4, 6, 8, 9, 10, 11, 12  |
| Biological Resources .....                       | ES-3, 5, 10, 12, 15           |
| common carrier .....                             | ES-2                          |
| conveyor system.....                             | ES-7                          |
| Council on Environmental Quality's (CEQ).....    | ES-3                          |
| Del Rio Subdivision.....                         | ES-6                          |
| Draft Environmental Impact Statement (DEIS)..... | ES-1, 5                       |
| Eastern Alternatives .....                       | ES-4, 5, 6, 9, 11, 12, 13     |
| Eastern Bypass Route .....                       | ES-4, 5, 8, 9, 10, 11, 12, 13 |
| Environmentally Preferable Alternative .....     | ES-10, 13                     |
| Final Environmental Impact Statement (FEIS)..... | ES-1, 5                       |
| floodplain .....                                 | ES-9, 11, 12, 13              |
| historic resources .....                         | ES-9                          |
| land use .....                                   | ES-3, 6, 10, 12, 15           |
| loading loop .....                               | ES-6                          |
| loading track.....                               | ES-6, ES-8                    |
| MCEAA Medina Dam Alternative .....               | ES-4, 5, 8, 9, 10, 11, 12, 13 |
| National Environmental Policy Act (NEPA).....    | ES-3                          |
| National Historic Preservation Act (NHPA).....   | ES-3                          |
| New Fountain, Texas .....                        | ES-9                          |
| old Medina Dam route .....                       | ES-9                          |
| parallel tracks.....                             | ES-6                          |
| Petition for Exemption.....                      | ES-8                          |
| property severance .....                         | ES-15                         |
| Proposed Route .....                             | ES-3, 4, 6, 8, 9, 10, 11, 12  |
| public meetings .....                            | ES-1, 17                      |
| Quihi area.....                                  | ES-4, 8                       |
| rail interchange area.....                       | ES-6                          |
| Rail Route Alternatives.....                     | ES-8, 10                      |
| reasonable and feasible alternatives.....        | ES- 7, 8                      |
| right-of-way .....                               | ES-14                         |
| SGR's Modified Medina Dam Route .....            | ES-4, 5, 8, 9, 10, 11, 12, 13 |
| side track .....                                 | ES-7                          |

|                                              |                         |
|----------------------------------------------|-------------------------|
| stock ponds.....                             | ES-11, 14, 15           |
| Submission of Comments .....                 | ES-17                   |
| Supplemental DEIS (SDEIS).....               | ES-1, 4                 |
| trucks.....                                  | ES-1, 2, 3, 7, 10       |
| Union Pacific Railroad Company (UP) .....    | ES-1                    |
| UP rail line .....                           | ES-1, 2, 3, 7, 8, 9, 10 |
| VCM's proposed quarry .....                  | ES-2, 6, 7, 9           |
| Vulcan Construction Materials, LP (VCM)..... | ES-1                    |
| western bypass .....                         | ES-9                    |

### **Chapter 1**

|                                                       |                   |
|-------------------------------------------------------|-------------------|
| Advisory Council on Historic Preservation .....       | 1-4               |
| Alternative 1.....                                    | 1-5, 7, 9, 10, 11 |
| Alternative 2.....                                    | 1-5, 7, 9, 10, 11 |
| Alternative 3.....                                    | 1-5, 7, 9, 10, 11 |
| common carrier .....                                  | 1-2, 6            |
| connected actions .....                               | 1-6               |
| Council on Environmental Quality's (CEQ).....         | 1-3               |
| cumulative impacts .....                              | 1-6               |
| Draft Scope of Study for the EIS (Draft Scope) .....  | 1-4               |
| Eastern Alternatives .....                            | 1-7, 8, 9, 10, 11 |
| Eastern Bypass Route .....                            | 1-7, 8, 10, 11    |
| Edwards Aquifer .....                                 | 1-6               |
| Final Scope of Study .....                            | 1-4, 8            |
| MCEAA Medina Dam Alternative .....                    | 1-7, 8, 10, 11    |
| National Environmental Policy Act (NEPA).....         | 1-3               |
| National Historic Preservation Act (NHPA).....        | 1-3               |
| Open House.....                                       | 1-3               |
| Preliminary Cultural Resources Assessment report..... | 1-4               |
| Proposed Route .....                                  | 1-5, 7, 9, 10, 11 |
| public meetings .....                                 | 1-1, 12           |
| purpose and need.....                                 | 1-2, 6, 9         |
| scoping .....                                         | 1-8               |
| SGR's Modified Medina Dam Route .....                 | 1-7, 8, 10, 11    |
| Submission of Comments .....                          | 1-12              |
| Texas Historic Commission (THC) .....                 | 1-3               |

### **Chapter 2**

|                               |                                    |
|-------------------------------|------------------------------------|
| aggregate loading system..... | 2-1                                |
| Alternative 1.....            | 2-4, 5, 6, 7, 8, 9, 10, 11, 13, 15 |
| Alternative 2.....            | 2-4, 5, 6, 7, 8, 9, 11, 13, 15     |
| Alternative 3.....            | 2-4, 5, 6, 7, 8, 9, 11, 13, 15     |
