Transcript:

I am calling to oppose the proposed Canadian National Railroad Corporation document number 35087. The reason is, this is a health hazard to our town of Plainfield, right now with all the traffic and all the build up, traffic is already in a critical state and if these railroads come in and the freight having the amount of trains coming in throughout the day, it will even impact it more and schools will not be able to be operational on time because buses will not be able to be at their schools on time, when emergency responses will not be able to reach the people who are asking for help because of the railroad crossings, people can die and this is a great hazard to our town and it is going to completely control, halt, and cripple it completely. <repeatedname and address> Thank you
