

5-6-17

Dear, Mr. Blodgett.

our Family is one of many generational Farm families in the path of the GLB proposed railroad and highway plan. my children are 5th generation in our home. we came here in 1884. we were hoping another generation could Farm this land as well. Much of the land affected is owned or rented by Farmers whose income would be stopped. What if your career was taken away from you or your loved ones? What would that do to your family, income, mortgage and general state of mind? These things need to be considered.

Thank you for your time.

Richard Comstock.
