Transcript:

I would like to request a public meeting in Naperville to be able to learn more about the draft of the EIS and be able to make a formal comment, how it's going to affect our neighborhood, I'm in Ashwood Creek, and I'm very concerned about this, especially the chemicals in that, of them hauling more and more chemicals and that close to neighborhoods and our schools, there's many schools that run within half a mile of the neighborhood. If there should be an accident with hazardous chemicals spills or explosion, you can wipe out a whole school within minutes. So I do not think this is, at this time, a, this is not an appropriate direction to take, so please make sure we can have a public meeting to state our comments. Thanks
