Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

I'm very concerned about the huge impact on traffic, the safety of our children and the additional time that will be needed to transport children to school.

Barrington will be severely impacted due to the close proximity of MAJOR ROADS crossed by the train tracks.

If this is approved, Barington will change forever — for the worst.
