

STB Finance Docket No. 35087

Comments must be submitted by September 30, 2008.

As a member of the Barrington Community, we as a family are against the proposed CDV acquisition of the EJEAL. We felt that this would increase the danger to our three kids having to travel to and from school. It would also create unbearable traffic around the Barrington area. I am concerned about the ~~traffic~~ increase in response time that it could cause emergency vehicles. Please do not allow this sale to go through.
