

Comment Form for the Surface Transportation Board

Date: 02/11/08

Name: Kathy Caudill

Address: 785 Trillium Trail

City: Lake Zurich State: IL Zip: 60047

Phone: 847-438-6416

E-Mail: Kathy.Caudill@sbcglobal.net

How will CN's proposed acquisition of the EJ&E impact you?

I reside about 1 1/2 miles from the EJ & E RR. I am also the President of the Elmhurst Area Public Library District Board of Trustees. The library is within a short walk's distance from the tracks. We already hear the trains within the library and feel the vibrations. Increased trains running daily will severely impact with noise & vibration potentially damage our building. More importantly, the access roads to and from our building will be blocked by the traffic held up by increased train routes.

I have 2 sons attending Lake Zurich High School. The increased train traffic will affect their bus routes to the high school and the roads that they (or their parents) will travel to and from the school. I am concerned that their school will be inaccessible for emergency vehicles in times of any illness or other emergency.
