To whom it may concern:

I am a mother of a 21 month old, who is extremely against this CN acquisition of EJ&E. We live less than one mile away from the railroad. The traffic congestion, the length of these trains traveling through the area, and the constant blowing of the train horn concerns me (as if we don't hear it enough as it is), however, my greatest concern is the amount of cargo that is traveling through our neighborhoods and the dangerous TOXIC materials that are being transported, endangering the health of my family. Once again, my family and I are absolutely against this acquisition. It is a known fact that in doing this, the health of the families living along this railroad will be greatly affected.

Thank you,

Erin Zymali
