Dear STB,

I desperately wanted to attend the public hearings in Utah last week. Unfortunately I was not able to. Please accept this positive letter regarding the rail. I was very disturbed that anyone would come from outside our area to oppose how we make our living. I regularly recreate all over the state and beyond. I would never think about opposing economic development in another community simply so I could feel less impacted on the few visits I make every year.

That concern prompted me to send this letter to you to summarize my support. State and local leaders have worked very hard to formalize their support and work with industry to find the best way to accomplish this goal. This process has been very well thought out and can be accomplished with a keen eye to the environment and financial viability. This project can be successful and can change the future for the better.

With appreciation,

A handwritten signature in black ink, appearing to read "Joshua Wayland", with a long horizontal line extending to the right.
