Transcript:

I am opposed to the new railway proposal. I believe that it detrimentally affects the village of Wayne and the traffic and backups that it would cause by it operating and I feel like it should be located further east where it is originally. I am against it 100% and I want our legislators to understand and know that and I believe that the majority of our village is against it as well. It would cause major delays I traveled it the roads on Army Trail and Shick and West Bartlett road and I believe the delays will be astronomically objectionable to anyone driving on these arteries. Please take my comments into consideration when you vote. Thank You.
