Transcript:

Telephone No. 815/609-1241. I am opposed to you allowing the purchase of the EJ & E Railroad Lines by the Canadian National Railroad for numerous reasons. My son attends a school, Peterson Elementary School, which is literally feet from that railroad. I am concerned about chemical spills and other kinds of traffic incidences that could occur off of the impact on our community as far as traffic, the trains, the noise and all the other things by increasing the traffic of trains significantly by allowing this to happen. I am violently opposed to you allowing that to happen. Please feel free to call me and feel free to ask me any questions.
