Initiative: Tongue River Railroad

Submission Text

Under no circumstances must this railroad be constructed. I urge a no action on the proposed rail line because it crosses private ranch land and abrogates private property rights. Additionally, the extraction of dirty coal in Montana is a losing proposition. In case nobody has noticed, the coal industry is in a sharp decline and raping the eastern Montana landscape for the purposes of sending dirty coal to China is not in the best interest of all Montanans. This proposal is so shot through with flaws that only a NO ACTION decision must be made. NO to the Tongue River Railroad.
