Washington, DC 20423

Dear Ms. Wood,

I was born and raised northeast of Quihi, Texas and currently own property in that area. I am writing this letter to voice my opinion against the Eastern Routes that are being considered for a rail line. The Eastern Routes more than double the number of farms and ranches that will be divided when compared to the original route. I am concerned that a division will separate and disturb our domestic animals and our wildlife. This rail line has the potential of destroying the farming and ranching culture in this area.

I know that progress is important and must go on, but the fewer people this progress harms, the better. Thank you for your consideration.
