Message:

I am opposed to the proposed acquisition of the EJ&E Railroad by the Canada National Railway Corporation for the following reasons.

- 1) Significant vehicle delays at railroad crossings in my area due to increased rail traffic.
- 2) Increases in emergency response times due to increased rail activity.
- 3) The negative environmental impact on the area due to increases in noise and emissions.
- 4) Adverse impact on local businesses due to lost business resulting from traffic diversion.

Please consider my concerns in your decision.
