

April 27, 2017

Dear Mr. Blodgett,
I am writing in
opposition to the Great Lakes
railroad. We live on the
north end of Winnebago County
& the proposed railroad will
cross 2 parcels of our property.
It will pass very near to our
homes.

Our farm is very, very
good rich farmland which
was purchased & farmed
by my father since 1967.
We have a grandson & a
great grandson who we
always thought would
inherit this property. It should
remain as it is, used for
farming & hunting.

proven need for this rail line. Our railroad problems need to be fixed not add another.

Our property is home to sand h cranes : bald eagles. We have de coyotes : fox. My dad chose to be this farm for the land : some fo pasture, some for farming. We ho chosen to remain here for those reasons : the peace : serenity.

Sir, I am sure you have received many letters like mine some longer with facts : figure maybe some shorter. But, none will be more heartfelt. We do ne need or want the Great Lakes Basin Railroad in Winnebago County or anywhere else in North St. Please do not allow Mr. Patton to prevail in this matter.

Thank you for your attention

Sincerely,

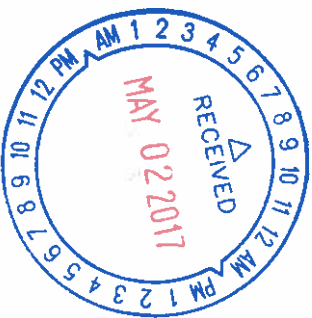

Sherre Fawcett
