Transcript:

I am calling in response of my opposition to the STB Finance docket number 35087. I believe that it will be a significant vehicle delay at the railroad crossings and the safety of the crossings, namely emergency response time. As well as the increase noise and pollution of these trains passing through our communities. And also the neighboring cities and villages that use our roads for their commutes to and from work, school and other activities will also feel the impact.
