Subject: FW: Uinta Basin Railway- Rocky Mountain Power's Request for GIS Data to Support the Gateway South Project Design

Josh,

Below you will find a request for GIS data that was sent to the Project email address from SWCA Environmental Consultants.

Thank you,
The Uinta EIS Project Team

Subject: Uinta Basin Railway- Rocky Mountain Power's Request for GIS Data to Support the Gateway South Project Design

To whom it may concern,

SWCA Environmental Consultants is currently supporting the engineering and design of the PacifiCorp/Rocky Mountain Power Gateway South Project, which is also located in the Uinta Basin. As there is the potential for overlap, we are requesting GIS data of the all proposed routes (preferred and alternatives). This will help to avoid conflicts and facilitate the final design of the Gateway South Project.

If feasible, please provide the requested data by 9/27/19.

Please let me know if you have any questions.

Thanks!

Sean Henry
Natural Resources Project Manager
