

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Joyce Johnson
132 N Maple St Burbank, CA

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Daniel E. Dunlap

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Malibu Green

ATTN: Office of Environmental Analysis Docket No. 30186

Board Members, "Addressing climate change" means reducing the use of coal--world-wide. I hope that you will ignore the company owners who tend to see only short-term gain. "Addressing climate change" means giving attention to long- term results of those gains. Therefore, I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I stand with Credo action and oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. Please take the noble path and reject the Tongue River Railroad.

Sincerely,

Jennifer Baker

ATTN: Office of Environmental Analysis Docket No. 30186

We oppose construction of Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would threaten the health of communities and environments along its entire route, while contributing to climate change. Allowing this project to move forward directly contradicts this administration's efforts to address climate change. It would be a step in the wrong direction, when we all want alternatives to fossil fuels, and we want to see dispersed-source generation, i.e. wind and solar on every roof and local, public distribution nets that augment regional systems. It is past time for this change.

Sincerely,

Lys Lyssie Burden

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bonnie Allen

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Carol Easton

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Elizabeth Clymer

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Tom Smith

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Scott Veazey

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Doreen Delgado

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Leon Moyer

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ken T Lim

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Marie Beckham

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Demian Gravlin

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Stephanie Shine

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bob Sipe

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Walter Plonker

.
