Dear Mr. Harecky:

We are thinking about our grandchildren and  
our greatgrand children and their children's  
children.

our grandson + his wife have a 4  
months old daughter with severe medical  
problems. She has been in the American  
Family Children's hospital in Madison, WI.  
since birth in April, 2016.

The parents mill 65 cows on 200 acres  
in Bradford Township. Possibly the best  
farmland in, W.I.S., our country or the  
world.

A railroad track down the middle of their  
200 acres would destroy them.

Please don't do it.

Thank you for your consideration.

Respectfully yours,

Ronald R. Albrecht
