Dear Mr. Navecky

My husband and I attended the meeting in Valparaiso, Indiana regarding the G. L. B. Railroad plan. It was very informative and thanks to you, easy to understand. What we learned then and since, is really shocking. We had no idea these plans were being made. We were unable to get close to the maps showing the affected areas. However, we know we and thousands of people on farms, in schools, in neighborhoods and businesses do not want this. The fact that G. L. B. Railroad wants over 15,000 acres for a rail terminal, is an unbelievable figure.

We had our house built here in 1977. Our plan was to have a place for our grandchildren to visit and play, away from crowded parks and busy streets. That worked for us, however, if this plan goes through, the Real Estate in this area will no longer attract most people. The peaceful countryside will be gone.

Please consider carefully what this plan will do. Two sets of tracks, 278-mile long, along with trains and everything connected with them, will spoil this area and others, for countless years to come.

Sincerely, Marionie Millus
