Subject: UBR - Preliminary Aquatic Resource Data for Craig
Attachments: Craig_preliminary_08142019.zip

Attached is GIS data that has been collected to date on the Craig route. The collected data mainly entails observation points that are either positive or negative in confirming wetlands (NWI or 2014) and NWI/NHD stream lines. As we discussed, to date we haven't completed any new delineation forms on Craig, but these points do preliminarily assess numerous features.

Kevin
