Dear Sirs-

As a Barrington property-owner, taxpayer and resident, the proposal in question has raised many important issues which will impact quality of life for many of us.

In addition to the ^{negative} impact on property values for many residents, safety concerns and increased risk for life-threatening delays for our public safety personnel, as well, the increased traffic and environmental impact to our community are major concerns that must be seriously addressed.

In response to the scoping meeting, I concur with other concerned residents that these important issues have not been thoroughly considered by the Canadian National Railway Company, and am extremely opposed to the proposed acquisition at this time and as presented.

Sincerely,

Nancy N. Quintana
