Dear Sirs

I live in Medina Oaks which is on the edge of the proposed quarry. I am against any railroad that would cross cr265 or 2676. It would delay the school bus that already takes an hour and a half to get here. It would also delay an emergency run to the hospital in Hondo.

I am retiring this year . I have invested all my assets into my homesite in which I am going to retire in. I planned on a quite, peacefull, country style living. With this railroad this will never come true.

Vulcan should move farther west where there aren't any towns or very many people to disturb.

Thanks for your concern Robert N. Clark
