

Mr. Tom Welch

485 Park Barrington Dr.
Barrington, IL 60010

Re The CNN Project

This project - the CNN purchase of the E & E railroad is going to be a disaster and applies to an inconvenience to the many residents, the 911 people, doctors, and anyone who uses his car for business. The cross-overs will be jammed.

But, the real problem is that it will close off the 2 arterials that lead in and out of Barrington at the same time. This includes Hough street in the N-S corridor and Lake Cook in the E-W corridor. It will close down for anyone living or working here. Please review how serious this would be, and put your efforts to keeping the status quo
