Transcript:

I want to bitterly object to the concept of running these trains through our town, it will destroy New Lennox and make New Lennox almost unlivable and the fact that they are even considering running these trains through the middle of downtown New Lennox is an outrage and anyone considering it is not looking at the impact that it'll have on the people that live here presently. I would like to strongly object to the notion that anyone would run that many trains through, right through the heart of downtown New Lennox and make sure that everyone understands that they will be destroying a very lovely town and make it unlivable because you will not be able to go from one side of town to the other, plus we'll hear trains, and noise, and everything will be ruined here. So, I can't urge you strongly enough to deny this proposal and make sure that this does not ruin a very, very lovely city. Thank you
