2011 PMRE Final report-01262012-nofigures_AKSHPO021312.docx

All,

I asked some of the other archaeologists here in our office to review the report since its submittal for formal review on 1/26. As a result of their review, we've provided some additional comments, which are tracked in the attached.

Additionally, we have some general comments:

- OHA Cultural Resources Report Coversheet: Please note that the work was completed under State permit 2010-34 (expires 2013). If this report was not submitted for the purposes of permit requirements, then our office will need one. Otherwise, check "Yes" in this box and note permit No.
- The organization of the maps as well as their individual labels/legends could be improved for clarity.

- When feasible to obtain/produce, additional photographs and a sketch/plan view of TYO-00276 site would be useful in understanding the features and gaining a better sense of their organization/scale.
- Overall, the photographs could be improved (size, resolution, brightness/contrast, and labels). They are not numbered, there is no photo log, scale, north arrow, or direction.

We appreciate the opportunity to comment and look forward to discussing this further tomorrow morning.

Best regards,
Shina

Subject: Re: Comments of Port Mackenzie Survey Report

Thanks Catherine -- we will address these. Shina -- will we be getting any comments form your office?

Hello,

Attached are 2 documents that contain comments regarding the 2011 Survey Report. The Word document includes specific comments about the report while the PDF document has several marked up pages from the report.

I wanted to be certain to get these to you in advance of our call tomorrow. I look forward to speaking with you.

-Cathy
