Attention STB:

As a resident of Stonebridge community, I am registering my dissent about increased train traffic + subsequent backups that will affect our community.

Already, transportation to 59 is impacted by increased housing, making the morning + evening commute unbearable. If additional trains add to this flow around the Fox Valley area, it will make traveling difficult all day - not just at rush hour.

Whoever is benefiting from these additional trains should foot the bill from their profits. Our quality of life shouldn't be impacted + so funds should be tapped for the overpass if these additional trains are allowed.
