I come to you in writing expressing my concern to the opposition of the Vulcan Quarry & Railroad. I grew up in Quilici & know all of the lifelong residents of this community. I am appalled at the fact that free enterprise does not even enter their minds. When I was living there my FATHER Wayne Balzen worked for the department of transportation; farm our land and in the off season / early years held another job. He did this to make a living. I feel & know that the ground surface transportation board be in favor of granting Vulcan Enterprises the Railroad right of way. The ground work has been

done by all parties and the
Quihi opposition group are just upset
because they do not have any residual
income source from this Project. There
are several people with ^{real} concerns and
those people need to deal with Vulcan
independently.
