Transcript:

I want to voice my opinion against the proposed acquisition of the EJ&E railroad by the CN railroad. As a resident of Plainfield for over 15 years, and I live approximately 100 yards away from the railroad tracks, I oppose this because it will cause a safety problem if emergency response times are increased, which they will, as well as significant delays in congested roads that we already have a problem with now. Again, I voice my opinion against the proposed sale of the EJ&E to the Canadian railroad. Thank you.
