847-312-2537. I am in very clear opposition of the passage of this transaction with CN. th other day I was and a freight train came through the area over Rand Road in Ela and it was well over 18 minutes before that train was through and traffic was just absolutely backed up everywhere. This is clearly unsafe, this is clearly a very bad business decision, and we the taxpayers should not be burdened with the bailout of the problem. I clearly vote no. I clearly do not want this transaction to go through. I am in complete protest, I think it is unsafe, and it's just going to wreck our neighborhoods along this complete corridor. It's unfathomable what is going to happen. <repeated name and address> Thank you
