c/o 9300 Lee Highway
Fairfax, VA 22031
Attn: Environmental Filing, Docket No. FD 36284

Dear Joshua Wayland:

I have lived in Uintah Basin for most of my life. I left to go to college and thought I would never come back because of the inconvenience of getting things in and out of the basin. Well here I am back in the basin where I was raised. I love it here for the community and raising my children.

I know that the railroad would be a great asset to us here in the basin. We rely on the gas and oil a lot and when it goes down we lose a lot of revenue. With the rail coming here it would bring more jobs and revenue which we need when the oil and gas goes down. We need the STB board to consider the Indian Canyon route. We would benefit from it immensely.

Thank you for taking the time to read and consider us.

Sincerely,

Ashley Marx
