

Dear Mr Johnson - Ball

Please help us keep the CN
from dividing our community. We have
children that must be bused across
those tracks twice a day, we will
have to travel to Joliet to get to
the hospital as most of our men
doctors appointments on time. When
the E.D. & operated that RR was in
the country - not only more and
the number of cars was limited -
Please note STB Financed

#35087.

Thank you
