Address	25406 Scott Rd				
Address 2					
City	Barrington	State	IL	Zip	60010

Transcript:

I am calling in reference to the Canadian National Situation Docket No. 35087. I am a resident of Barrington IL where I reside and raise my family and that is the reason why I moved here from the city because it had better schools, better roads, nice little village. Now I understand you people are considering allowing a company a corporation from another county entirely come in and upset our little village. I don't think so. My other reason we are here is we have a safe community where emergency vehicles can safely address whatever issues are required and if Canadian National is authorized to purchase it will certainly change and have a great impact on our community at the taxpayers expense in a community such as Barrington. We are hopeful that you people will not allow such a thing to happen where a company like Canadian National can benefit at the expense of taxpayers in a community that will feel the reproCUSion. Please evaluate this very carefully and I hope that you will not let such a terrible thing to happen.
